Intro

On behalf of the Bellaspur team we would like to welcome you to our 2026 Autumn Annual Bull Sale.

2024 was a stinker and 2025 rolled into one of the toughest starts on record, leaving all of us wondering if it's ever going let up. Considering the yearly total's rainfall had been significantly lower than average, we somehow managed to get a decent Spring and with that some of the best weight gains I've ever witnessed.

Our total V drop was weaned early with little to no feed in front of them they battled all Autumn and Winter - then to finally explode in Spring.

Many of these bulls catalogued achieved gains of north of 3kgs per day through Spring with very little supplementary feeding.

2025 saw Bellaspur genetics selling to strong demand with Bellaspur blood cattle standing in the front row and topping several of the major feature sales throughout North East Victoria.

As tough as the last two years have been, to see the progeny of our program thrive in tough seasons, and rise to the top both at home and for our clients at the sales is one of the most rewarding things you could hope for as a breeder.

The outlook for Australian beef is strong with Angus feeder steers tipped to hit \$6 plus throughout 2026 and many believe we could see \$7-\$7.50 for Angus feeders in 2027.

With this in mind, we encourage our clients to stick with our program and really reap the rewards of our focus on feed efficiency and fertility.

We look forward to seeing you all on Thursday the 19th of March at midday.

And yes, Morgy will be firing up the smoker for what's often referred to as the "best feed on sale circuit".

We also offer free delivery within 200kms.

Thank you for taking an interest in our program and best of luck for 2026.

Regards,

Brenton Sessions

Client Testimonials

I have purchased several bulls from Bellaspur Angus and found the bulls to be of good temperament, structurally sound, with good growth and weight. Highly recommend without hesitation!

Steve Clarke - Tallarook, VIC

We have been buying bulls from Brenton and the team at Bellaspur Angus since their beginning. The first lot of bulls purchased sired calves that were impressive when we marked them. Later we made comments on the quality and evenness of the hindquarters and quiet temperament. There was no kick in the yards when working with them and the calves all sold very well as weaners. We continue to use Bellaspur bred bulls.

Angus McKinnon - Balmattum, VIC

We've been using Bellaspur bulls for many years. The quality of the calves is portrayed in the outstanding temperament and weight gains. This season's heifer calving has been nothing short of exceptional!

Matt Byrne - Mansfield, VIC

3% Agent Rebate

A 3% rebate is offered to outside agents introducing buyers to the selling agent prior to the sale and settling with 7 days.

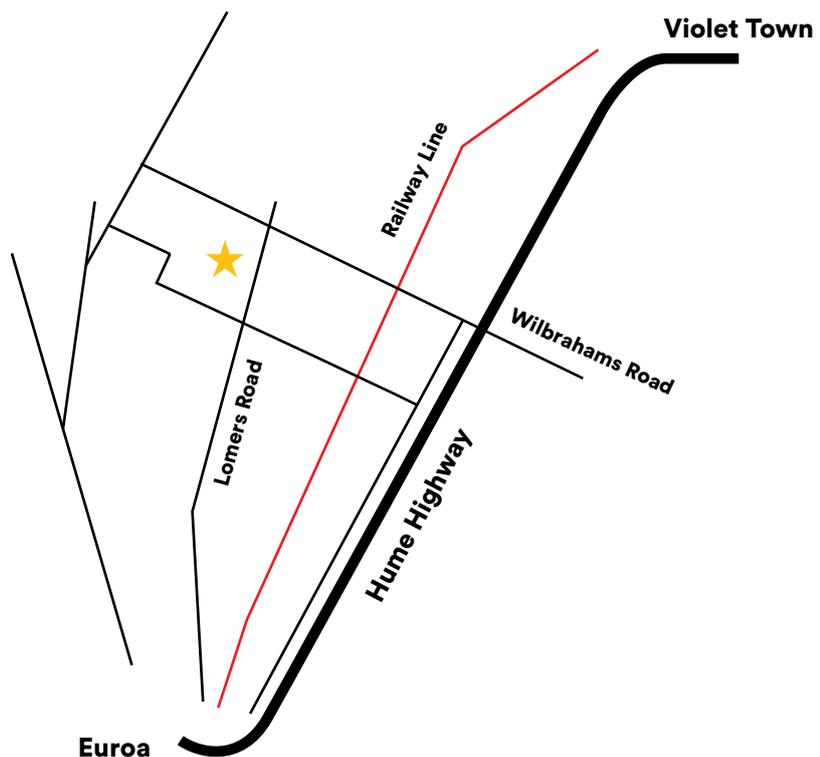

Outside agents must attend the sale to be eligible.

Directions

Bellaspur Angus is located half way between Violet Town and Euroa.

Stay on the Hume Highway until you reach the Wilbrahams Road turn off. Drive about 3kms down this road (over the railway line) and then turn left onto Lomers Road. The sale complex will be about 1km down this road. There will also be signs on the day.

Map

Sale Information

Sale Day Proceedings

The bulls will also be penned at 9am on sale day for prior-inspections. The sale will be a live auction held on-property and via Auctions Plus. Bull lots will be displayed on a board and agents will be present to take your bids. If you can't attend on-property, you are more than welcome to bid online. Please make sure that you have registered with Auctions Plus.

Transfers

Stud bulls will be transferred upon request. Please contact us to arrange this.

Genomic EBVs

All the bulls have been genomic tested. To the best of our knowledge, all the animal details in this catalogue, including but not limited to pedigree, DNA information, EBVs and Index values are correct. The EBV data was extracted from Angus Australia as part of the Mid-January 2026 cattle evaluation.

Supplementary Sheet

We will have the most up to date genetic information available on our bulls on sale day. This will be sent out via email, posted on Facebook & Auctions Plus and also available in hard-copy.

Lunch

Light refreshments will be provided in the morning and an American-Style BBQ lunch will be available after the sale.

Semen Testing & Vaccinations

All bulls have passed a crush-side semen evaluation by OvaSem. Bulls have been treated with Pestiguard, 7 in 1 and Vibriovax.

Buyer Registration

If you intend to actively bid on-property, please register with the settling agents Nutrien, prior to sale on the day. Otherwise if you intend to bid online, please register with Auctions Plus.

Inspections Welcome Prior To Sale

Please contact Brenton to arrange a day and time that is convenient for you.
